A unit of RKB Infra Prop Pro Ventures Pvt Ltd.

# EQUIPMENTS

STATE OF THE ART GERMAN TECHNOLOGY,  
completely automated machines producing  
over 1,00,000 bricks/day.

Imported pallets from SAMJUNG  
Industries, South Korea.

ROTHO, German made Curing systems.

Palfinger Truck Mounted Crane from  
Austria

40,000 + Clients  
40 Years Of Excellence

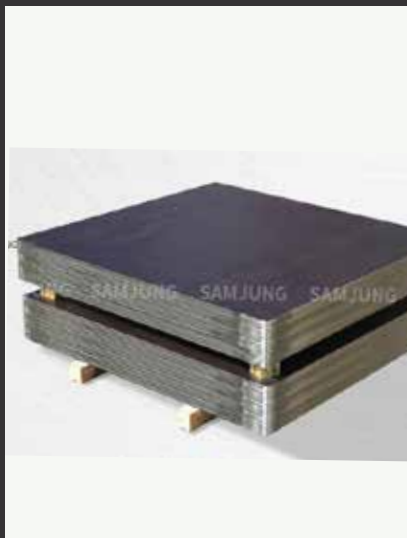

# RKB BUILD PRO MAIN FACTORY

# WHO WE ARE ?

With a **four-decade** legacy, we proudly stand as **premier manufacturers** of Concrete Blocks, Pavers, & Kerbstones. Evolving from our roots, we've transformed into a comprehensive construction solutions company.

Powered by state-of-the-art German technology, automated machinery, and cutting-edge techniques, we present our customers with a plethora of choices, ensuring unparalleled quality and variety in every project.

# THE EVOLUTION OF RKB BUILD PRO

1984

## The Foundation of a Dream

Sri Ramakrishna Constructions is established, marking the beginning of a legacy in the construction industry.

2008

## Strengthening the Roots

The company transitions to RK Constructions, focusing on larger projects and building a reputation for reliability and quality.

2015

## Expanding Horizons

RKB Infra Prop ProVentures Private Limited is formed, diversifying into real estate and infrastructure development, solidifying the company's presence in the industry.

2016

## Resourceful Expansion

RKB Mines is established, ensuring a steady supply of high-quality raw materials and enhancing operational efficiency.

2018

## A Bold Leap Forward

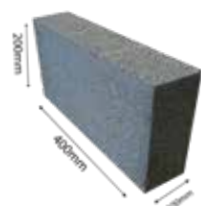

RKB Build Pro is launched, representing the culmination of decades of experience. Having started as contractors, the team deep-dived into the field, conducting thorough R&D on concrete products. This journey led to the production of M-sand and diversification into manufacturing world-class concrete products.

2024

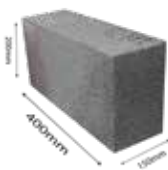

**FOUR DECADES,  
THOUSANDS OF PROJECTS,  
ONE TRUSTED NAME - RKB**

Celebrating 40 years of service, RKB Build Pro stands as the largest manufacturer of concrete products in South India, delivering innovation, quality, and sustainability.

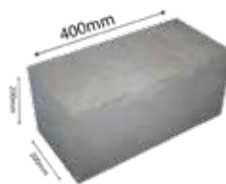

# RKB SOLID BLOCKS

**4" Solid Blocks**  
400x100x200 mm

**6" Solid Blocks**  
400x150x200 mm

**8" Solid Blocks**  
400x200x200 mm

**Standard Bricks**

## RKB SOLID BLOCKS are epitome of trust and quality

Cured in German Rotho Systems, RKB Blocks are energy efficient and cost efficient.

Available in 4 sizes | Moisture & Fire Resistant | Strong and Durable

ASPECTS	RKB BUILD PRO	OTHERS
Manufacturing Technology	✓ Advanced vibration with hydraulic compression for precise and durable products.	Concrete platform and basic hydraulic processes, leading to less effective compression.
Energy Transfer	✓ High-quality steel pallets ensure maximum vibration energy transfer for longer product life.	Concrete beds cause energy loss to the ground, reducing product strength and durability.
Product Strength & Density	✓ Superior strength and density, ensuring reliable performance.	Lower strength and density due to incomplete energy transfer during production.
Curing Process	✓ German technology ensures automated and even curing for uniform quality.	Conventional water curing results in uneven curing and inconsistent quality due to manual handling.
Edge & Surface Finish	✓ Smooth edges and excellent surface finish, ideal for precision construction.	Edges and surfaces are less refined, leading to inconsistent finishes.
Automation & Human Error	✓ Fully automated process minimizes human error, ensuring consistent quality.	Manual interventions increase the chance of errors and quality inconsistencies.
Curing Time	✓ Requires only 7 days, enabling faster delivery to clients.	Takes 20–25 days, delaying project timelines.
Weather Resistance	✓ All-weather production; rain does not affect the process as the plant is fully covered.	Production halts during rain; wet material exposure impacts quality.
Water Absorption	✓ High-density blocks absorb less than 5% water, improving durability and longevity.	Lower density blocks absorb 7–8% water, making them less durable.

With RKB Build Pro, you invest in a legacy of trust.

# RKB PAVERS

Pave the way to your success with our RKB PAVERS

## OUR OFFERINGS

Site  
inspection

Product  
Manufacturing

Product Delivery &  
Installation

## TEXTURE & FINISHING

Shot Blasted

Blended

Smooth Finish

Rough Finish

2mm Finish

## 6 COLOR VARIANTS AVAILABLE

## OUR PRODUCT PORTFOLIO

Square Pavers

200x200x60/80 mm

Rectangle Pavers

200x100x60/80/100 mm

I - Pavers

200x163x60/80 mm

Zig-Zag Pavers

225x112.5x80 mm

Flexi Pavers

Set- 455x405x60 mm

Rosa Cometa  
Grass Pavers

330x330x120 mm

Artline  
Grass Pavers

300x300x120 mm

Tri-Hex  
Pavers

186x200x60 mm

Cobble  
Stone Pavers

100x100x60 mm

3D / Diamond  
Pavers

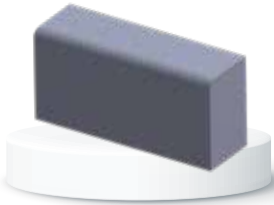

200x200x60 mm

## OUR PRODUCT PORTFOLIO

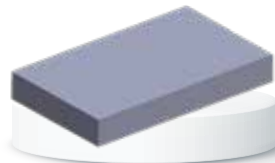

**Bull Nose  
Kerb Stones**

**Half Battered  
Kerb Stones**

**Flush  
Kerbs**

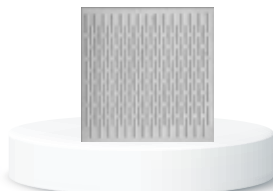

**Splayed  
Kerb Stones**

**Down Stream  
Gutter**

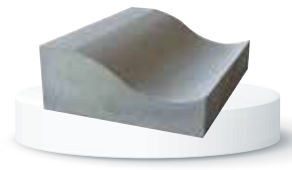

**Flag Stones**

**Saucer  
Drain**

**Storm Water Drain  
Kerbs**

Half Battered KerbStones	914*305*150/125/100/ 50mm
Splay Kerbstone, Saucer Drain, Flush Kerbstone, Bullnose Kerbstone	
Half Battered KerbStones	600*300*200/150/125/ 100/50mm
Splay Kerbstone, Saucer Drain, Flush Kerbstone, Bullnose Kerbstone	
Half Battered KerbStones	600*450*150/125/ 100mm
Splay Kerbstone, Bullnose Kerbstone	
Drain Slab	900*600*100/80mm
	800*600*100/80mm
	750*600*80/ 100mm
Flag Stone	600*600*70/80/90/100mm

## OUR ECOFRIENDLY STAR PRODUCTS

Permeable Pavers

Green Infrastructure  
for Stormwater  
Management

Grass Pavers

Eco-Friendly Solutions for  
Water Conservation and  
Soil Preservation

Designer Flag Stones

Ensuring Clear  
Water Flow with  
Advanced Features

## RKB STONE CRUSHER

- GSB
- Wet Mix
- M Sand
- Concrete Sand
- Plastering Sand
- 6 mm Aggregates
- 12 mm Aggregates
- 20 mm Aggregates
- 40 mm Aggregates

New and extended Kerb plant, offering innovative products to serve more clients with unmatched quality.
